## About Me

"I'm Amanullah, a Software Engineer with 6+ years of experience in building mobile apps, websites, and automation tools. I've worked with private firms, government organizations, and corporations to deliver impactful solutions. My expertise also extends to digital marketing and online trading. Passionate about problem-solving, I focus on innovation and efficiency in every project I take on.

## WORK EXPERIENCE

Aug 2018 - present

Grenchat company owner

### My Services

- App Development - Custom mobile apps for Android and iOS with seamless UI/UX and scalable performance.
- Web Development - Responsive and secure websites, from landing pages to complex web applications.
-
